

Illumina iScan connectivity guide

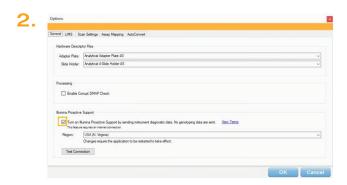

Easily connect your iScan System

To reduce unplanned downtime, minimize run failures and lost samples, plus resolve issues faster if and when they arise, simply follow the steps below.

Follow these steps to get connected

- From the pull-down menu on the Welcome Screen, select Tools > Options
- Under the General tab, ensure the box in section Illumina Proactive Support is selected
- Click OK

For more information, contact your local field applications scientist or field service engineer.
